

20 hrs runtime !**High Power Battery Operated LED Work Light****Made in Taiwan**

Focus bright, clear light exactly where it is needed, anywhere it is needed. With a powerful magnetic base (5kgs), this LED-bulb lamp 3.25W (made in Japan by Nichia #NCSW119) anchors down on power tool, workbenches and more, then bends and flexes its way into perfect position while staying out of your way. An extra magnet (1.5kgs) stored in the tail cap can be mounted in front to pick up screw etc. in the dark area with side illumination. Great for sewing machine mechanics; car repair shops etc.

mod. LED-M68 with flexible arm & powerful magnetic base (250 Lumens)

Low Voltage - Energy Efficient - Long Life over 10,000 hours of operation

- A. Front Magnet (Stored in Tail Cap room when not in use)
- B. Produce Auxiliary Side Illumination when Front Magnet in Use.
- C. Flexilbe gooseneck 36.5cm/14-1/2" long. Overall length:58cm/23"
- D. Durable metal connector.
- E. 3-Position (On...>50%...> Off) Switch Button
- F. Battery Power Indicator - Turning from GREEN to Red when power is 15% less.
- G. 4-Piece Strong Magnet Installed on Tail Cap Base (5kgs holding power)
- H. Tail cap

SPECIFICATIONS:

01. model: **LED-M68 3.25W** high power LED aluminum magnet work light
02. LED: JAPAN **Nichia (NCSW119)** high power white LED
03. Lumens: 240~250 Lumens at Full POWER position, 100 lumens at 35% position
04. Power Driven: 3.0~3.3Watt (3.6~3.7V 800~850MA±5%)
05. Light type: Glass Optical lens produces high intensity spot light
06. Material: 6463-T6 durable aerospace-grade aluminum alloy case
07. Finish: corrosion-resisting anodized in various color finishes (dark grey color as standard)
08. Switch: weatherproof 3-position (100%~35%~OFF) switch on grip
09. Power indicator: turned from **GREEN to RED** when power is 15% less
10. Dimension: L580mm(length)x ø18mm(head)x36.5mm(diameter) (±5%)
11. Weight: 260g(without batteries)
12. Battery type: **3 X AA** (alkaline, heavy duty or rechargeable)(included)
13. Battery holder: A USA patented battery cartridge
14. Runtime: Battery life (100%~10%) 10~12 hours at FULL power position; 20~24 hours at 35% power position.
15. Water resistant: conformed to IPX-6 standard and shockproof design
16. **Patent: USA patent No. 7,648,499 B2** and 2 others pending
