

Special Adjustable Roller Feet

for all industrial 1-needle lockstitch sewing machines - Juki, Mitsubishi, Brother, Singer, Consew etc. etc.

It comes in 4 different rollers :

- | | |
|-----------------------------|----------------|
| A: Steel toothed (serrated) | Item No. R200A |
| B: Knurled steel | Item No. R200B |
| C: PU material (smooth) | Item No. R200C |
| D: Nylon toothed (serrated) | Item No. R200D |

Can be used for general kinds of tailoring sewing machines with no additional equipment. By adjusting the spring behind, it is adapted for various thickness, kinds, and layers of all sorts of materials - heavy materials, leather, vinyl, PU leather, PVC, foam laminated fabrics, etc. etc.

- * Designed for surfaces that cannot be oiled.
- * Eliminates the use of oil and oil pads.
- * Stops gathering and uneven stitches.

Presser Feet for Brother BAS-310,311A, 326A, 341A etc.
