

Long Arm Quilting Machine Sit-down Version

mod. HQ-2018SD

- * **18" x 11" (460 x 280mm) Extra Large Workspace**

Much wider handling area than any other long arm machines on the market. Discover the impressive 18 inches (480mm) of horizontal throat space between the needle and the arm of the machine. Even more impressive is the 11 inch (280mm) height, unlike most long arm quilting machines which only provide an 8 inch (203mm) height or less.

- * **Main table (120 x 80 x 75cm)(L x W x H) with four sliding drawers with casters**

- * **Bright LED Lights**

The newly designed ultra bright LED lights over the needle area as well as under the arm illuminate your work space like never before, making it easy to see detailed work, while simultaneously reducing strain on your eyes.

- * **All around LED lighting system featuring a "UV" black light setting.**

The LED lights over the needle area can be switched to UV lights.

- * **Large Capacity High Speed DLC(Diamond Like Coating) Rotary Hook**

Decrease the frequency of bobbin thread changing also enable sewing work with increased efficiency. Special DLC coating thus oiling just one drop a day.
