Knife & Scissors Sharpener

- * Molded plastic construction with two alumina ceramic rods for sharpening knives and sharpening scissors.
- * Compact design – make it easy to fit this sharpener in your pocket or hang it on key chain, sewing kit or purse for convenient portability.

Specification	A	B	C
	45mm	48.5mm	9mm

ITEM No. KSS-C100 SIZE: 45x48.5x9mm (AxBxC)

Handy pocket size with strap & clamp lets you have sharpening tool anywhere

Insert a scissors with the slot opening facing up and scissors mark facing you and apply gentle pressure to the blade as you pull the scissors "toward" you. Usually 3 to 4 strokes are enough to smooth worn blades, returning to a sharp edge.

- * Excellent for sharpening most household knives, craft knives, buttonhole knives, utility knives, fishing and hunting knives etc.
